

Why do we celebrate "Juneteenth"?

Juneteenth is the oldest known celebration recognizing June 19, 1865 as the day slaves in Texas received news of their freedom, thus ending slavery in the United States, nearly three years after the Emancipation Proclamation of 1863. Today, Juneteenth commemorates African American freedom and emphasizes education and achievement. The mission of this celebration is to promote and cultivate knowledge and appreciation of African American history and culture.
